Dispense

New Pharmacist KPI Report

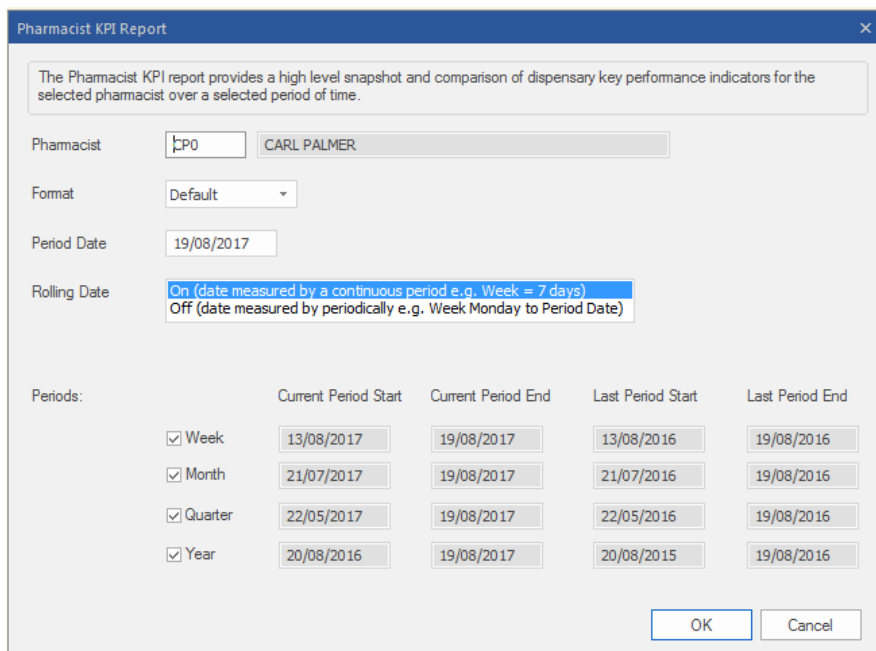

The new **Pharmacist KPI Report** provides a high level snapshot and comparison of dispensary key performance indicators for a selected pharmacist over a selected period of time. Like the Dispensary KPI Report, the Pharmacist KPI Report reduces the need to run multiple reports over multiple date ranges for analysis and comparison. For more information, please read the **Pharmacist KPI Report [guide](#)**.

To display the report:

1. Navigate to **Dispense Pro**.
2. Click the **Reports** menu and select **F. Pharmacist KPI Report**.

The **Pharmacist KPI Report** dialog is displayed.

The screenshot shows the 'Pharmacist KPI Report' dialog box. It contains the following fields and options:

- Pharmacist:** A text box with 'P0' and a dropdown menu showing 'CARL PALMER'.
- Format:** A dropdown menu set to 'Default'.
- Period Date:** A text box with '19/08/2017'.
- Rolling Date:** A dropdown menu with two options: 'On (date measured by a continuous period e.g. Week = 7 days)' (selected) and 'Off (date measured by periodically e.g. Week Monday to Period Date)'.
- Periods:** A table showing the current and last period start and end dates for different time intervals.

Periods:	Current Period Start	Current Period End	Last Period Start	Last Period End
<input checked="" type="checkbox"/> Week	13/08/2017	19/08/2017	13/08/2016	19/08/2016
<input checked="" type="checkbox"/> Month	21/07/2017	19/08/2017	21/07/2016	19/08/2016
<input checked="" type="checkbox"/> Quarter	22/05/2017	19/08/2017	22/05/2016	19/08/2016
<input checked="" type="checkbox"/> Year	20/08/2016	19/08/2017	20/08/2015	19/08/2016

At the bottom right, there are 'OK' and 'Cancel' buttons.

Make your selections and click the **OK** button.

The **Pharmacist KPI Report** is displayed.

Record and display prescriber information in Dispense

There is now the facility to add important information against a prescriber and an option to prompt the Dispensary Tech/Pharmacist with the information when the prescriber is recalled in the dispense form.

From **Dispense Pro**:

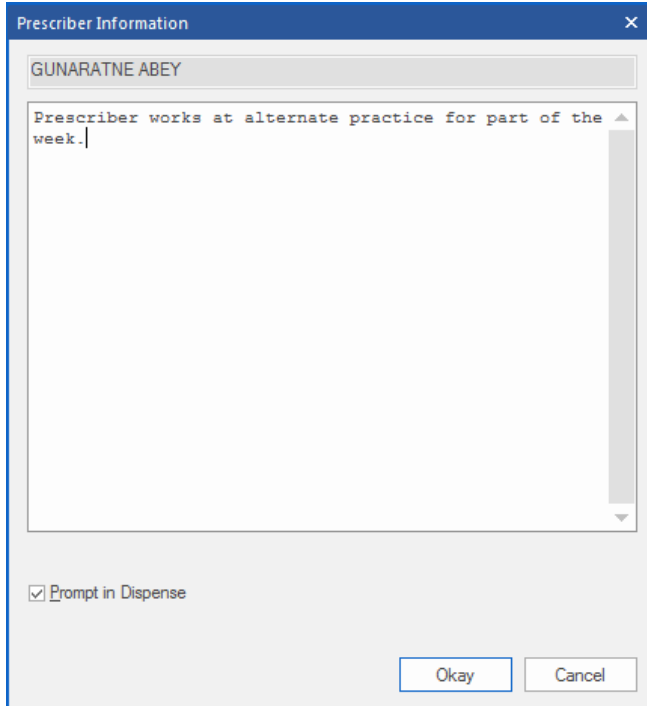

- Click the **Maintenance** menu and select **4. Prescribers**.

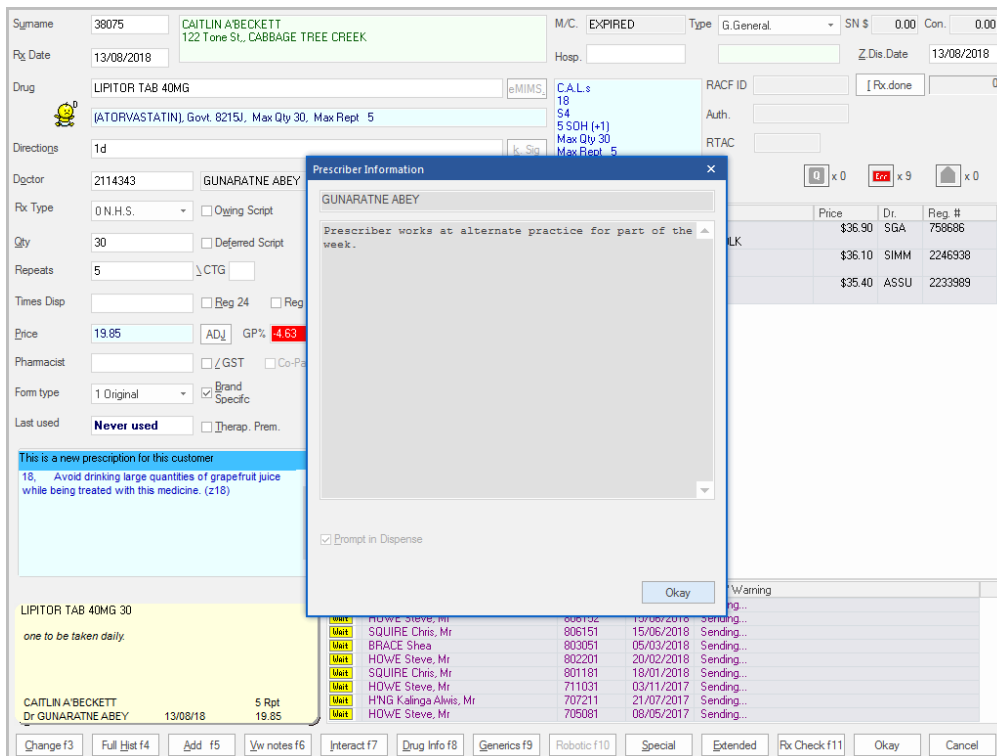

- Select the prescriber and click the **Info** button.

ABDW	766303	WASSOUF	ABDULLAH	Prescriber Audit Report
AGS	434140	GASSIEP	ABDURRAGIEM	
ABEA	111111169	AIDE	ABEL	
ABEO	111111120	AYANNA	ABELL	
ABEF	111111150	FLORRIE	ABERNATHY	
ABER	111111147	RAE	ABERNATHY	Switch Names

Enhancements to the Drug Recall and Generic Drug Listing screens

The **Drug Recall** and **Generic Drug Listing** windows have been enhanced, improving consistency in the information shown in the two windows and providing more detail to the pharmacist when selecting the correct drug.

Drug Recall Window – Lipitor TAB 40MG

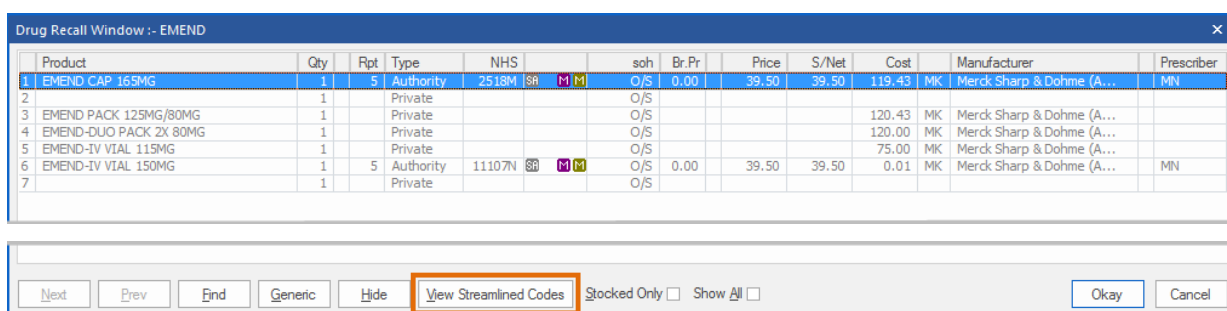

Product	Qty	Rpt	Type	NHS	soh	Br.Pr	Price	S/Net	Cost	Manufacturer	Prescriber
1 LIPITOR TAB 10MG	30	5	NHS	8213G	-1 (+5)	0.00	18.22	14.09	10.00	PF Pfizer Australia Pty Ltd	MNP
2 LIPITOR TAB 10MG	30	11	NHS Rest	9230T		0.00	18.22	14.09			MP
3 LIPITOR TAB 20MG	30	5	NHS	8214H	0 (+3)	0.00	18.95	14.82	14.75	PF Pfizer Australia Pty Ltd	MNP
4 LIPITOR TAB 20MG	30	11	NHS Rest	9231W		0.00	18.95	14.82			MP
5 LIPITOR TAB 40MG	30	5	NHS	8215J	5 (+1)	0.00	19.86	15.73	20.77	PF Pfizer Australia Pty Ltd	MNP

7 EMEND-IV VIAL 150MG	1		Private		O/S						

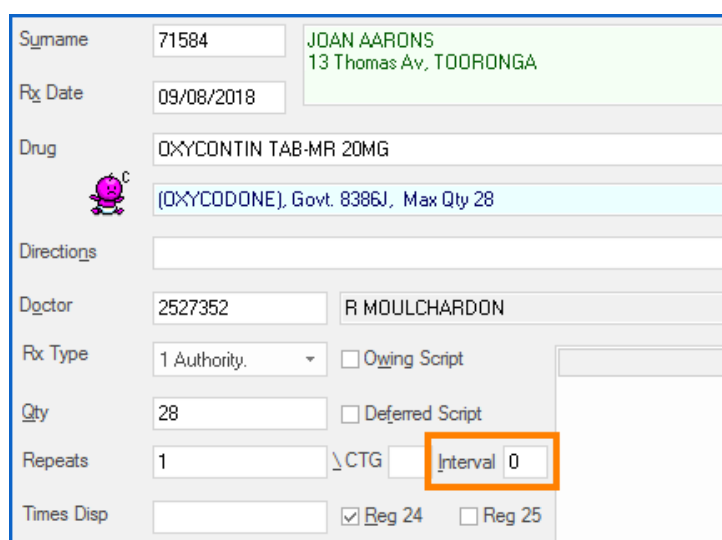

Buttons: Next, Prev, End, Generic, Hide, View Streamlined Codes, Stocked Only, Show All, Okay, Cancel

The **Streamlined Codes** dialog is displayed, showing the codes.

An interval of '0' can now entered for S8 + Reg 24 scripts

When dispensing a S8 + Reg 24 script, a value of zero may now be entered in the **Interval** field without triggering the **Interval Warning** prompt.

The image shows a dispense form with the following fields and values:

- Surname:** 71584, JOAN AARONS, 13 Thomas Av, TOORONGA
- Rx Date:** 09/08/2018
- Drug:** OXYCONTIN TAB-MR 20MG, (OXYCODONE), Govt. 8386J, Max Qty 28
- Directions:**
- Doctor:** 2527352, R MOULCHARDON
- Rx Type:** 1 Authority, ☐ Owing Script
- Qty:** 28, ☐ Deferred Script
- Repeats:** 1, ☐ CTG, **Interval:** 0 (highlighted with an orange box)
- Times Disp:** ☐ Reg 24, ☐ Reg 25

Easily search for prescribers by surname

Prescribers can now be searched for by surname from the dispense form. After entering the surname into the **Doctor** field, and where there is no exact match to their registration number or code, the **Prescriber Search** window will be displayed and the closest match will be displayed at the top of the search results. To add a new Prescriber select the **Add** button on the **Prescriber Search** window.

Authority numbers can now be entered without leading zeros

When dispensing an authority prescription, Minfos now accepts authority numbers entered into the **Authority Number** prompt without the leading zeros.

Ordering

New button in Order Maintenance to view Product Notes

In the **Order Editing** window, stock controllers can now quickly view the **Product Info** dialog for products displaying the **I** icon, by highlighting the product in the order and clicking the **Info** button [Alt+N].

	Sup.Code	Description

Resolved Issues

Dispense

- The **Hourly Dispense Activity Report** now correctly exports to Microsoft Excel.
- **Minfos Calendar** no longer automatically prompts to save changes.
- The Grand Total EPF value in the **Weekly Payment Report** is now displayed correctly.
- The **EPF values** for under-co benefits are now included in the **PBS Online Summary Reconciliation Report**.
- The **If needed before** date is now printed on the **Repeat** form when dispensing a previously deferred script.

Dispense Reporting

- The doctor's name is now displayed correctly in the **Customers by Drug and Doctor Report**.

Stock Manager

- The **Backdated Stock On Hand report** will no longer use the Unit Cost from a Transfer.
- Minfos no longer displays the details of the previous product when adding a new product.

Reports

- Minfos no longer defaults to an incorrect date when typing a short hand format past the year 2019
- The **Self Service Portal** now correctly launches from the Reporting module.

Till

- Minfos no longer changes the **Amount Paying** after selecting **No** to pay existing balance into Credit.
- A reprint of a Till docket with GST from Dispense no longer differs from the original docket.

Robotic Dispense

- Minfos no longer changes the number of packs to be delivered in certain conditions.

Promotions

- **Promotion Reports** are now exported to Microsoft Excel correctly.

Accounting

- Cheques can now be entered in a mix of upper and lower case in Minfos Payables.
